

WEWOW

EARTH WEEK

PRODUCED BY *Tinkercast*

Activity: Reduce, Reuse, Upcycle

Go through your recycling bin, grab some craft supplies and turn your trash into treasures! Maybe you'll take an empty can and turn it into a planter? Get creative!

Materials:

- recycled materials such as cardboard cereal boxes, cardboard tubes, bottle tops and lids, empty shampoo bottles, tin cans
- rubber bands
- wool/yarn
- paper plates, paper cups, plastic cutlery
- wooden sticks, embroidery hoops and craft sticks
- stickers, gems, glitter, pom poms, ribbon, beads, etc.
- markers, crayons, paints

Wow- To:

Step 1: Start by gathering some materials from the recycling bin. Make sure all of the items are clean and dry before you start crafting with them

Step 2: Look at your materials for inspiration. Do you have a tin can you can turn into a planter? A yogurt cup you might turn into a musical instrument? Or toilet paper tubes that could be rain sticks? Let what you have on hand guide you toward what you will make.
