

Who, WHEN, **WOW!**

PRODUCED BY *Tinkercast*

Name: _____ Date: _____

Dear Hero... **Caroline Herschel: Astronomer**

Make a connection! Describe something that happened in Herschel's life that you connected with personally. Explain what that connection is.

Think about the impact of Herschel's work and career on the world today. What kind of impact do you think she had at the time when she was alive and making discoveries? Think of someone who lived at the time of Herschel, whose life would've been impacted by her work. On a separate piece of paper, write a letter to Herschel from that person's point of view.

Things you could include:

- A personal story from the letter writer that explains why you're writing;
- Questions you want to ask Herschel;
- An offer to help her do the work she does in some way.
