

Name: Date:

The Fluffy Feather Relay Race

The object of this game is to have each team member walk the race course with a feather balanced on a spoon without dropping the feather!

Materials:

- Feather (1 per team)
- Spoon (1 per team)
- 4 cones

Wow-To:

Step 1: Set up your “race course” using the cones. A simple rectangle, the length and width of the tallest competitor, will work for this.

Step 2: Each team gets a feather and a spoon.

Step 3: The object of this game is to have each team member walk with the feather balanced on the spoon around the four cones and back to start. They will then hand off the feather and spoon to the next person until everyone has made it down and back. This takes patience, balance and lots of hand-eye coordination.

Step 4: Whichever team successfully completes the course first wins!
