ACTIVITY INSPIRED BY

MATERIALS

- ★ Stopwatch (or mobile phone)
- ★ A large pasta pot or bucket
- ★ Measuring cup

The Unskidmarkable Toilet

SAVE THE WATER

We all know it is important to use water consciously. This simple activity challenges you to do better in this department.

ACTIVITY
WOW TO:

- 1 Prepare the stopwatch** or mobile phone and time how long it takes you to wash your hands properly.
- 2 Once you know how long it takes** you to wash your hands, you will set the timer to that exact time.
- 3 Place your pot under the faucet**, turn on the tap and start the timer. Let the pot fill up until the timer goes off.
- 4 Now you have a visual understanding** of just how much water an average hand washing takes. You can measure how many cups of water you used if you like.
- 5 Use this visual** to challenge yourself to do better and use less water.
