Shark Tail

MATERIALS

- ★ 1 cup flour (white or whole wheat)
- ★ ½ cup salt
- ★ ¼ - ½ cup water
- ★ Bowl
- ★ Spoon
- ★ Butter knife

SALT DOUGH SHARK TEETH

A fun, easy craft you probably already have all the ingredients for on hand.

CRAFT WOW TO:

- 1 **Mix** salt and flour together (if you want white shark teeth, use white flour. If you want brown teeth, you can use wheat flour) in a bowl.
- 2 **Add** water, starting with just 1/4 cup. If you are using whole wheat flour, you will probably have to go up to a 1/2 cup. Mix until dough holds together, but isn't too sticky. You're looking for a play dough like consistency.
- 3 **Roll** out the dough. Then using a butter knife to cut out your shark teeth.
- 4 **Preheat** your oven to 200 degrees Fahrenheit. Then bake the shark teeth for about 20 minutes.
- 5 **Remove** them from the oven and allow them to cool.
