

Mindy's Tips to Make a Mini YOU-seum

Too cold to play outside?! Spend the day curating a mini museum in your room! Here are some tips from Mindy for how can turn your bedroom into a must-see mini museum all about YOU!

Set up a themed "Exhibit!"! - Do you have A LOT of one particular item? Stuffed animals? Trading cards? Those little stickers that come with bananas? Why not display them in an artful way around your bedroom? Organize them by color, size, or the amount of time you've had them. Create labels and descriptions. Exhibits tell a story through the things that make them up. And this is a story about YOU! So what's your story?

Create a "Touch & Feel" display! - Do you have endless amounts of slippery slime, a super soft stuffed animal, or something that just feels interesting to the touch? Group these items in a "Touch and Feel" display and maybe even add a blindfold so your "guests" have to guess what they are!

Give a Guided Tour - Once you've finished curating and setting up your Mini You-seum exhibit, invite your family and friends to come take a tour!

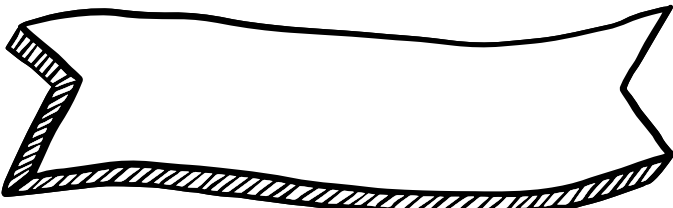

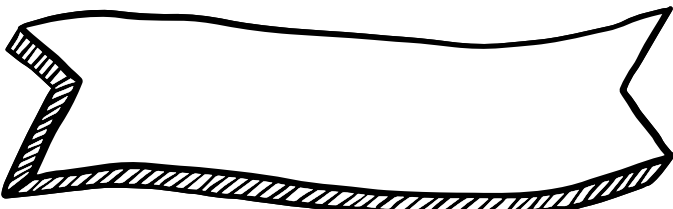

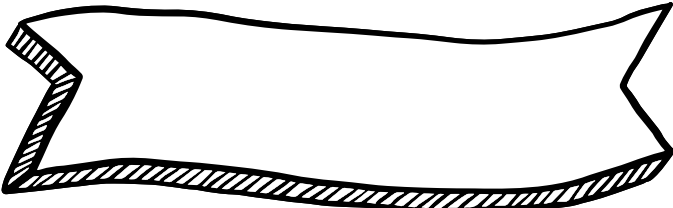

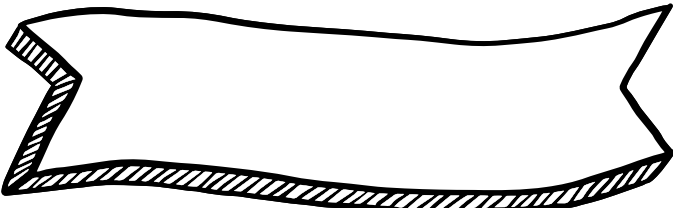

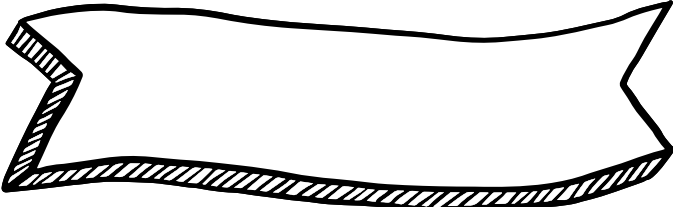

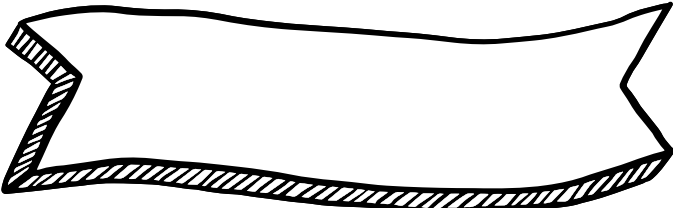

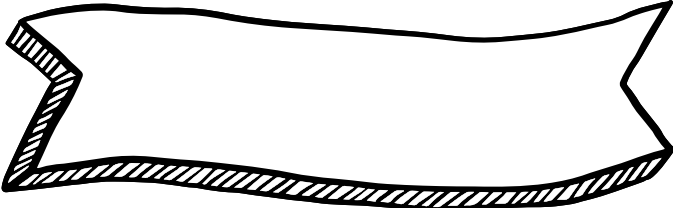

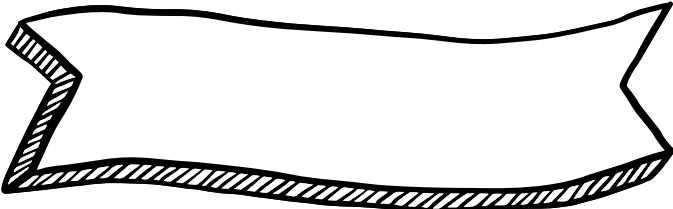

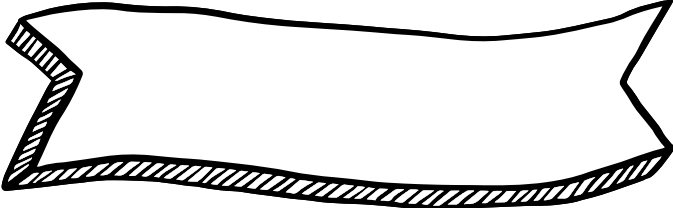

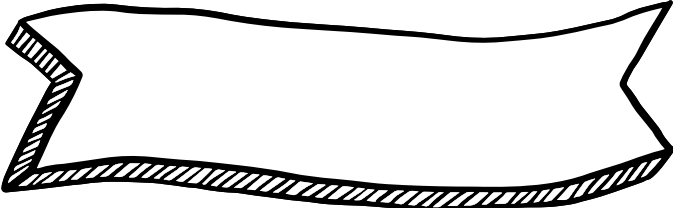

Exit Through the Gift Shop - As you curate your display you may find some toys, books, and clothing that you've outgrown or no longer need. Create a little "gift shop" for your guests to take a souvenir on their way out!

Make Your Own Mini YOU-seum Labels!

Print and cut out the following labels to help set up your YOU-seum Exhibit!

Make A Ticket For Your Tour!

Once you've set up your YOU-seum, print and design your own tickets for your friends and family! Give your YOU-seum a name and a logo!
