

Invisible Ink

How do you leave a secret message in plain sight? Write it in **INVISIBLE INK!**

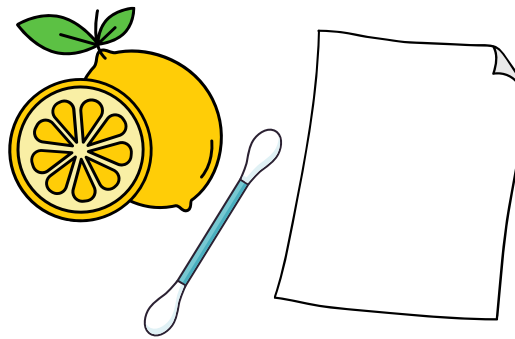

Here's how to make your own at home.

WOW-To:

What You'll Need:

- Lemon juice (or vinegar)
- Cotton swab or paintbrush
- White paper

Steps:

Make the Invisible Ink

Squeeze a little lemon juice into a small bowl (you can also use vinegar if you don't have lemon juice).

Write Your Secret Message

Dip a cotton swab or paintbrush into the lemon juice. And use it to write your secret message on the white paper.

Let It Dry

Let the lemon juice dry completely. The paper will look blank after it's dry, but don't worry. Your secret message is still there!

Reveal the Message

After it's dried, you can reveal the message by holding the paper up to a bright light, such as sunlight, or by using a flashlight in a dark room. The lemon juice will make the paper look slightly different, and your secret message will slowly start to appear!

Bonus Tip

You can use other liquids like vinegar, milk, or even baking soda mixed with water to make different invisible inks!
