

Mischief & Mystery Mail

Make someone else's day with a little mischief, mystery, and a whole lotta WOW! Here's how...

Did you know that there are a surprising number of items that can be mailed through the US Postal Service without packaging or envelopes?! Just attach a label and postage and let the USPS take care of the rest!

Here are a few ideas to get you started...

A Coconut

A fun and tropical surprise! Just label it with the address and postage, and you're good to go!

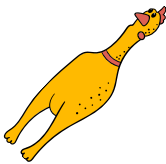

A Flip Flop

Send a single flip-flop to a fun-loving friend! No envelope needed if it fits.

A Plastic Toy

Small toys, like action figures or toy cars, can be mailed just as they are.

A Rubber Chicken

Slap some postage on a bare rubber chicken for the adventure of a lifetime... through the mail!

A Potato

Send a spud to your best bud! No box necessary.

Some things to keep in mind:

- Make sure the item meets the USPS size and weight limits!
- You can attach a label or put the address and postage directly on the item.
- No Sharp or Dangerous Objects! Ensure the item is safe enough to be mailed without packaging.
- No Perishable Goods! Only send items that can withstand the mail journey without packaging. In other words, don't mail soup.
