

Introducing Planet WOW!

Time to take your Wowzer Family on a bonkerballs Geocaching eco-adventure—search for hidden geocaches, find trackable trading cards, and spread the WOW of caring for our planet in the real world!

What Is Geocaching?

A real-world treasure-hunting game! Participants navigate to a set of GPS coordinates to find hidden containers called "geocaches." All you need is a Smartphone with GPS enabled and a free Geocaching.com account!

What's a Trackable Trading Card?

A card with a unique tracking code that you can find in geocaches and follow at Tinkercast.com/PlanetWOW as it travels from cache to cache and place to place. For Planet WOW!, there are four different cards that each feature a unique climate change WOW fact. If you find one, re-stash it in another geocache located in a place that makes you say WOW!

How Does It Work?

1. Visit Geocaching.com or Download the app

Grown-ups, sign up for an account so you can record and keep track of your finds!

2. Search for Geocaches

Use the app or website to find *Planet WOW!* caches near you. Each cache has GPS coordinates and clues to help you locate it!

3. Find the Cache

Follow the GPS to the location and look for our *Planet WOW!* container. Need help? Click the "Hint" button in your app or on the website. If you're still stuck, check the Tracking History for clues left by other Wowzer families like you!

4. Sign the Logbook and scan the QR Code!

Each *Planet WOW!* cache contains a QR code that will take you to the *Planet WOW!* website where you can hear a mini *Wow in the World* episode and learn more about becoming a Planet Protector. You'll also find a logbook inside each geocache where you can write your name, something that WOWs you about the location, and the date to mark your discovery! Your WOW may be included in a very special episode of *Wow in the World* this fall, all about Planet WOW!

5. If you find a Tracking Trading Card, spread the WOW!

There are 4,000 *Planet WOW!* trackable trading cards spreading like WOW-cakes across the world! If you are lucky enough to find one, use the unique code on the card to log its location at Geocaching.com/Track. Then, place the trading card you found in a new geocache for someone else to find, helping it continue its journey and spreading the WOW of caring for our planet!

6. Submit your Planet WOWs at Tinkercast.com/PlanetWOW!

Now that you are a Planet Protector and have explored real wows in the world, we want to hear about it! Go to Tinkercast.com/PlanetWOW and upload a video, photo, or audio message telling us about all the places on our planet that you love and protect and make you say WOW! Then, check out a very special episode of *Wow in the World* this September featuring *Planet WOWs* from Wowzers just like you!
