

Podcasts That Spark Curiosity & Conversation!

We provide a **FREE** set of **conversation starters** on our website for every *Wow in the World* episode to inspire conversations about the episode at home. Check out this sample from the episode, *A Star is Born – A Brief History of Nuclear Fusion*:

1. In this episode, Mindy introduces us to her latest and greatest invention – *THE PET-O-MATIC 3000*, which is the world’s first automatic dog petter! It pets your dog for you when your arms get too tired! Way to solve a problem, Mindy! **Can you think of another invention that solves a problem like this one did?**
2. Mindy and Guy Raz use a shrink wand to shrink themselves down to the atomic level. **If you could shrink yourself with their shrink wand, what would you do with your tiny self?**
3. Imagine entire cities powered by clean, renewable fusion energy! This would transform many parts of our lives and industries. **Think about the specific impacts this would have on your life. Discuss them with a friend or family member.**

A Star is Born – A Brief History of Nuclear Fusion

Mindy is building a nuclear fusion reactor in her back yard to help power her latest invention. **In order to explain the science behind the power, Mindy takes Guy Raz inside our very own, 100% natural, locally sourced, fusion reactor just 93 million miles away the Sun!** It's the who, when, where, why, how and WOW of nuclear fusion energy!
